

Accelerate your digital inkjet
journey with our technical
services team

We're different!

Here at Hybrid Software Helix we understand how difficult it can be to get started on your digital inkjet journey, so if you have our technology in your press, our Technical Services team is ready to offer expert advice and guidance.

Unlike other technical services groups our aim is to accelerate your project to market so that you

get to revenue quicker. We don't exist to generate revenue from consultancy, we're here to get you shipping with Hybrid Software Helix technology. So if you want engineers to help drive your projects to revenue get in touch with technical-services@hybridsoftware.com

Your digital inkjet journey with Technical Services

We pride ourselves on offering a personal, friendly service and work with you to ensure the best possible outcome, so you can get value for money out of your press. The Technical Services team helps develop new components, prototype technologies and provides

support for every stage of your project. Our aim is to help you get to market sooner. Available in 5-day blocks, 50% of the cost is offset against future license purchases when your solution begins shipping.

Educate

Try our digital inkjet training courses and workshops to learn what you need to build a press with digital software.

Evaluate

Dedicated Technical Services team members help you get started and evaluate our technologies.

Break through

Use the experts from our BreakThrough service to break into your market and start shipping sooner.

It's teamwork. We work with you, providing additional, expert resource, to break through those problems that are preventing you getting to revenue.

The aim of the Technical Services team is to accelerate your product all the way over the finishing line. They can inject your project with the knowhow and energy that will help you succeed in record time.

Work with the experts!

Hybrid Software Helix is one of the world's foremost experts in printing, PDF and digital document software. Ours is the software behind the perfect printed and digital communication. Through our various technologies for rendering, screening, and color management, we add value to solutions marketed by the world's leading brands, including HP, Canon, Roland, Durst, Delphax and Kodak. Hybrid Software Helix is the OEM Software business of Hybrid Software Group listed on Euronext (GLOG).

Our customers choose us because:

- Our software is **technically superior** and **performs faster** than our competitors
- The engagement model offered by our Technical Services team **accelerates your time** to market
- We are **innovators** in **high-speed** digital printing
- We are experts in **overcoming** the **output quality challenges** of high-speed inkjet printing
- We have a **flexible and open** commercial model
- We are easy to work with because we have a **partnership approach** to development
- We offer **superb technical support**
